My Global FX is an initiative for the young generation interested in making more, willing to step forward and be free from financial situations. We provide knowledge based on self-learning, experience, and theoretical implications on the market. In general, trading is considered a business not suitable for everyone, but this is just a hoax which we clear by letting you learn about the strategies that can provide a good profit.

Copy trading is an investment strategy that allows individuals to automatically replicate the trades of experienced and successful traders. When the selected trader opens, modifies, or closes a position, the same action is executed proportionally in the follower's account.

Trade Learning For **EVERYONE, EVERYWHERE**

Our goal is to provide the right education to the investors and traders before they start actual investment. Through our structured programs we want to change the myth **("Forex Market is a gamble")** about forex market in India. With limited class size of 6 people we train our students through professional trader and mentor on a trading floor which is equipped with advance trading tools, fast connection and latest live case studies.

We create amazing results for our **(growing)** list of pioneering clients. We're not just an agency, we're a trusted partner.
